

TOWN OF RIVERVIEW PRESENTS...

I CAN SWIM

What is I CAN SWIM?

A modified swim program, with a new set of levels that maintains our core values and reflects the very best of each swim program offered across North America.

Designed with simplicity and consistency in mind

Refocused on the most important swimming skills across 8 levels

All levels run for 40 minutes, keeping your swimmer active throughout

Reduced class sizes, with a maximum of 4 for all levels

Simplified pricing, with one fixed fee across all levels

Why the Change?

- **SWIMMER FEEDBACK**

5 years of input collected from surveys, level success rates and drop-off points in our existing program

- **IN THE WAKE OF COVID-19**

There has been a growing demand for smaller class sizes, which translates to more 1:1 attention from our swim instructors. We offer as many activity options as our pool size can accommodate while maintaining an adequate staff-to-student ratio.

- **INSTRUCTOR-INFORMED**

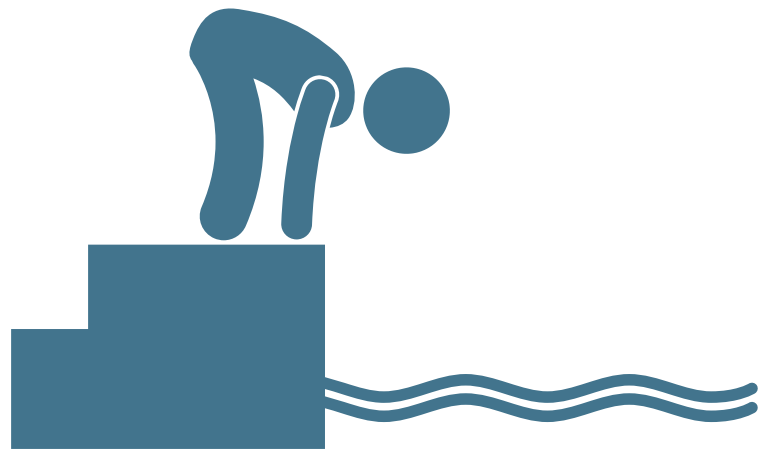

Created by our team to resolve teaching challenges and foster inclusion and learning

- **PROFESSIONAL GUIDANCE**

Our revised program is informed by industry-leaders, national benchmarking and trial runs.

Competency-based Levels

WATER SKILLS

READINESS

MASTERY

SAFETY &
SURVIVAL

Driven by Recognition

Praise

LEVELS ARE DESIGNED TO ENCOURAGE SWIMMERS FOR SKILLS COMPLETED, RATHER THAN A SIMPLE PASS/FAIL

Badges

EACH LEVEL CONSISTS OF MULTIPLE BADGES, SO SWIMMERS ARE REWARDED ALONG THE WAY

Progress

A SYSTEM IS IN PLACE TO TRACK PROGRESS AS YOUR SWIMMER MOVES THROUGH I CAN SWIM LEVELS

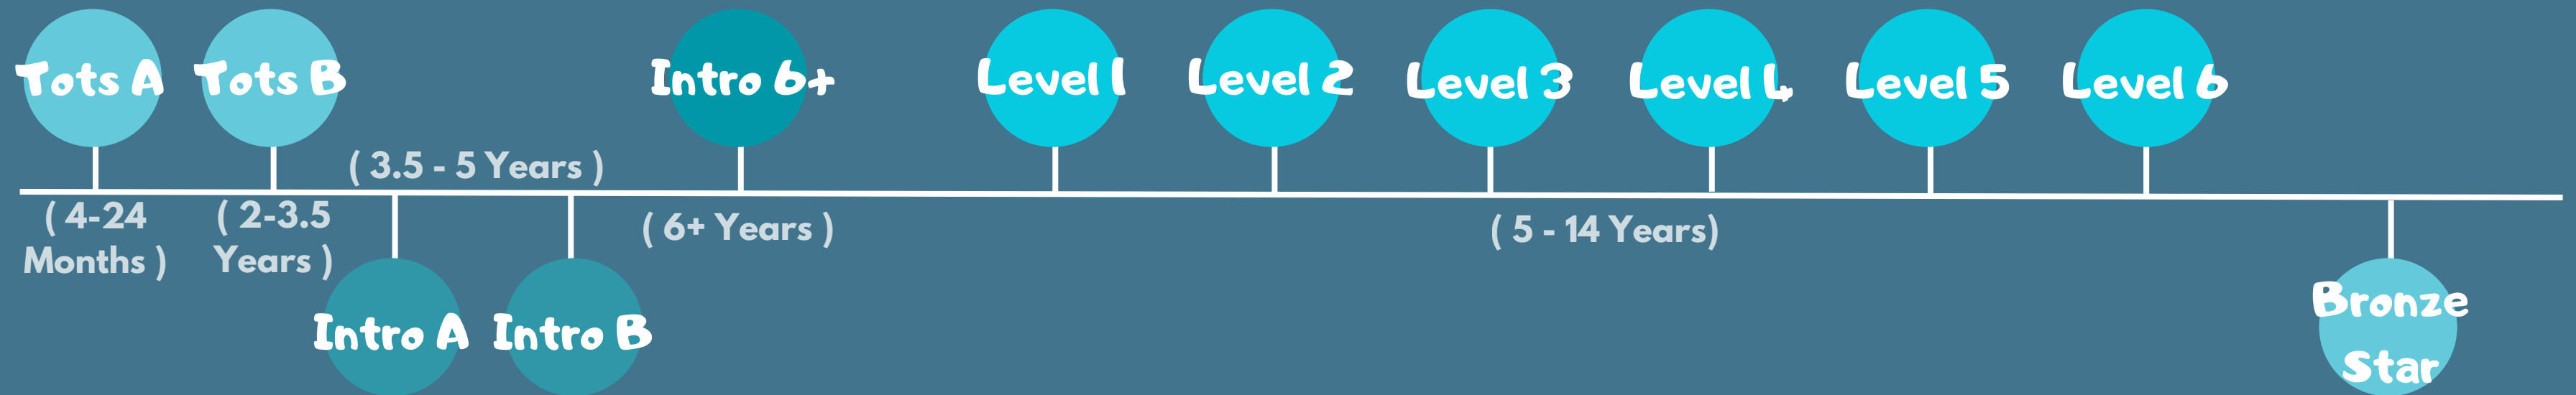

Learn at Your Own Pace

It is important to recognize that each swimmer learns at a different pace. With **I CAN SWIM**, it is expected that each level take close to 30 weeks, or 2-3 sessions to master. This allows for ample time to practice and physically develop to meet time and distance targets.

SIMPLY STRUCTURED

Less Age Barriers, More Skill-Based

If your child is enrolled in our Tots program, please be aware that it's mandatory for you to be in the water with them throughout the session. However, for Intro classes, your participation is optional. We recommend that after the second or third week, you consider allowing your child to practice their skills independently or with the support of their instructor.

Taught by Aquatic Educators

PREPARATION IS KEY

A lot goes into becoming an aquatic educator, with over 150 hours in safety and leadership training. Our team is ready to be part of I CAN SWIM's success.

SWIMMING AS A LIFE SKILL

We feel swimming is an important life skill that no one should be without. This passion is what drives our team's ability to deliver high quality swimming lessons.

How to Get Started

EQUIVALENCY

Search for your last level using report cards or your online account.

Use our [placement chart](#) to find your I CAN SWIM level

SCHEDULE

Before registration begins, we post the classes we will be offering, allowing you to plan which activities best suit your busy schedule.

REGISTER

Keep an eye on our website for upcoming registration dates scheduled throughout the year.
